

MATHS BINGO

➤ **ABOUT:-**

It is a fun event in which participants have to strike off the numbers on the tickets by solving some mathematical aptitude questions.

➤ **ELIGIBILITY:**

- Students of class (6th , 7th & 8th).

➤ **RULES:**

- This event is for students of class (6th , 7th & 8th).
- There are no such teams i.e. only single players will be entertained.
- The numbers will be in the form of (mathematical) aptitude questions.
And they will be displayed using a power point presentation.
i.e. instead of calling out numbers directly, we will ask questions and the students will have to answer them.
- The duration to solve each question is 30-40 seconds.
- The students who will solve it as soon as possible and strike off all the numbers on their tickets or the 1st line (or 2nd line or 3rd line) will be the winners.

➤ **PRIZES:**

1st Line

2nd Line

3rd Line

Full House
